IN REPLY PLEASE ADDRESS  
CHIEF, U.S. WEATHER BUREAU  
WASHINGTON 25, D.C.  
AND REFER TO  
R-3-Z

Dr. Robert D. Fletcher  
Division of Science Society  
Headquarters, Air Weather Service  
Scott Air Force Base  
Illinois

OGC Has Reviewed

Dear Dr. Fletcher:

I have just heard that you displayed pictures of three typhoons; 14 July 1958, 27 September 1958 and the picture published in last June's Weatherwise, taken from very high altitudes. These are very interesting to us in connection with our meteorological satellite work and we wondered if you could supply us with copies of the pictures or perhaps negatives or prints we could duplicate. In addition we would like to get all possible data to enable us to perform photogrammetric measurements, such as photographing altitude, included angle of lens, focal length of camera, etc.

Yours very truly,

L. F. Hubert  
Meteorological Satellite Section
